

## MIDWEEK SOCIAL SAILING 2009

The days at Calshot have been chosen because of the good tidal conditions. The good wind directions are from North East through South East round to South West. If the forecast is for other directions, it will be better to change the location to Sandbanks even though the tides there will not be as good. If in doubt, members can contact Colin Stirret (01425-279817) or Geoff Hook (01202-604732).

Date	Day	Venue	1 <sup>st</sup> High	2 <sup>nd</sup> High	Low
